ELSEVIER

Journal of the Autonomic Nervous System 51 (1995) 261–262

Journal of the
Autonomic
Nervous
System

Author Index

Barber, W.D., Yuan, C.-S., Burks, T.F., Feldman, J.L. and Greer, J.J.
In vitro brainstem-gastric preparation with intact vagi for study of primary visceral afferent input to dorsal vagal complex in caudal medulla (51) 181
Becker, J.M., see De Giorgio, R. (51) 37
Bennett, M.R., see Nichol, K.A. (51) 91
Bevilacqua, M., see Furlan, R. (51) 223
Bonyhay, I., see Jokkel, G. (51) 85
Boyer, A., see Yettefti, K. (51) 191
Brecha, N.C., see De Giorgio, R. (51) 37
Brunicardi, F.C., see De Giorgio, R. (51) 37
Burks, T.F., see Barber, W.D. (51) 181

Chan, N., see Nichol, K.A. (51) 91
Chapleau, M.W., see Li, Z. (51) 59
Chiba, T., see Tanaka, K. (51) 245
Chida, K., Miyagawa, M., Usui, W., Kawamura, H., Takasu, T. and Kanmatsuse, K.
Effects of chemical stimulation of the rostral and caudal ventrolateral medulla on cerebral and renal microcirculation in rats (51) 77
Coleman, W., see Gatti, P.J. (51) 255
Czachurski, J., see König, S.A. (51) 67

Davey, D.F., see Nichol, K.A. (51) 91
De Giorgio, R., Zittel, T.T., Parodi, J.E., Becker, J.M., Brunicardi, F.C., Go, V.L.W., Brecha, N.C. and Sternini, C.
Peptide immunoreactivities in the ganglionated plexuses and nerve fibers innervating the human gallbladder (51) 37
De Vries, W.B., see Vandertop, W.P. (51) 49
Drummond, P.D.
Lacrimation and cutaneous vasodilatation in the face induced by painful stimulation of the nasal ala and upper lip (51) 109

Fateev, M.M. and Nozdrachev, A.D.
Projections of stellate ganglion sympathetic neutrons in cats (51) 129
Feldman, J.L., see Barber, W.D. (51) 181
Finley, J.P. and Nugent, S.T.
Heart rate variability in infants, children and young adults (51) 103
Furlan, R., Piazza, S., Bevilacqua, M., Turiel, M., Norbiato, G., Lombardi, F. and Malliani, A.
Pure Autonomic Failure: Complex abnormalities in the neural mechanisms regulating the cardiovascular system (51) 223

Gatti, P.J., Johnson, T.A., Phan, P., Jordan III, I.K., Coleman, W. and Massari, V.J.
The physiological and anatomical demonstration of functionally selective parasympathetic ganglia located in discrete fat pads on the feline myocardium (51) 255
Gispen, W.H., see Vandertop, W.P. (51) 49
Go, V.L.W., see De Giorgio, R. (51) 37
Greer, J.J., see Barber, W.D. (51) 181

Himmi, T., see Yettefti, K. (51) 191
Hirano, T., Nagai, K. and Nakagawa, H.
[^{3}H]Dopamine uptake in adrenal chromaffin cells of mice under acute immobilization stress: difference between dark and light period (51) 199
Hornby, P.J., see Krowicki, Z.K. (51) 175
Hosomi, H., see Murakami, H. (51) 237
Hsu, C.-T.
The role of the autonomic nervous system in chemically-induced liver damage and repair – using the essential hypertensive animal model (SHR) (51) 135

Johnson, T.A., see Gatti, P.J. (51) 255
Jokkel, G., Bonyhay, I. and Kollai, M.
Heart rate variability after complete autonomic blockade in man (51) 85
Jordan III, I.K., see Gatti, P.J. (51) 255

Kagawa, K., see Murakami, H. (51) 237
Kanmatsuse, K., see Chida, K. (51) 77
Karhula, T.
Comparison of immunohistochemical localization of [Met^5]enkephalin-Arg^6-Gly^7-Leu^8, [Met^5]enkephalin, neuropeptide Y and vasoactive intestinal polypeptide in the superior cervical ganglion of the rat (51) 9
Kawamura, H., see Chida, K. (51) 77
Kollai, M., see Jokkel, G. (51) 85
König, S.A., Offner, B., Czachurski, J. and Seller, H.
Changes in medullary extracellular pH, sympathetic and phrenic nerve activity during brainstem perfusion with CO_2 enriched solutions (51) 67

Krowicki, Z.K. and Hornby, P.J.
Substance P and serotonin independently affect intragastric pressure when microinjected into the nucleus raphe obscurus of the rat (51) 175

Lambertz, M. and Langhorst, P.
Cardiac rhythmic patterns in neuronal activity are related to the firing rate of the neurons: I. Brainstem reticular neurons of dogs (51) 153
Lambertz, M., Schulz, G. and Langhorst, P.
Cardiac rhythmic patterns in neuronal activity related to the firing rate of the neurons: II. Amygdala neurons of cats (51) 165
Langhorst, P., see Lambertz, M. (51) 153
Langhorst, P., see Lambertz, M. (51) 165
Li, Z. and Chapleau, M.W.
Platelet-induced suppression of baroreceptor activity is mediated by a stable diffusible factor (51) 59
Lin, H.-C., Wan, F.-J., Tung, C.-S. and Tseng, C.-J.
Adenosine and glutamate modulate the cardiovascular responses of angiotensins II and III in the area postrema of rats (51) 19
Lombardi, F., see Furlan, R. (51) 223

Malliani, A., see Furlan, R. (51) 223
Martini, F., Reynaud, J.-C. and Puizillout, J.-J.
Effects of substance P on cardiovascular regulation in the rabbit (51) 143
Massari, V.J., see Gatti, P.J. (51) 255
Matsukawa, K., Wilson, L.B., Wall, P.T. and Mitchell, J.H.
Differential effects of clonidine on renal sympathetic nerve activity and heart rate at onset of static exercise (51) 205
Mitchell, J.H., see Matsukawa, K. (51) 205
Miyagawa, M., see Chida, K. (51) 77
Morita, H., see Murakami, H. (51) 237
Murakami, H., Takeda, T., Kagawa, K., Morita, H., Tanaka, S. and Hosomi, H.
The role of extrinsic nervous system in jejunal absorption during elevation of intraluminal pressure in anesthetized dogs (51) 237

Nagai, K., see Hirano, T. (51) 199
Nakagawa, H., see Hirano, T. (51) 199
Nichol, K.A., Chan, N., Davey, D.F. and Bennett, M.R.
Location of nitric oxide synthase in the developing avian ciliary ganglion (51) 91
Nishijo, K., see Ohsawa, H. (51) 27
Nishimura, T.
Activation of calcium-dependent chloride channels causes post-tetanic depolarization in rabbit parasympathetic neurons (51) 213
Norbiato, G., see Furlan, R. (51) 223
Notermans, N.C., see Vandertop, W.P. (51) 49
Nozdrachev, A.D., see Fateev, M.M. (51) 129
Nugent, S.T., see Finley, J.P. (51) 103

Offner, B., see König, S.A. (51) 67
Ohsawa, H., Okada, K., Nishijo, K. and Sato, Y.
Neural mechanism of depressor responses of arterial pressure elicited by acupuncture-like stimulation to a hindlimb in anesthetized rats (51) 27
Okada, K., see Ohsawa, H. (51) 27
Orsini, J.C., see Yettefti, K. (51) 191
Ouazzani, T.E., see Yettefti, K. (51) 191

Parodi, J.E., see De Giorgio, R. (51) 37
Perrin, J., see Yettefti, K. (51) 191
Phan, P., see Gatti, P.J. (51) 255
Piazza, S., see Furlan, R. (51) 223
Puizillout, J.-J., see Martini, F. (51) 143

Reynaud, J.-C., see Martini, F. (51) 143
Rush, R.A., see Saltis, J. (51) 117

Saltis, J. and Rush, R.A.
The development of normal and peripherally deprived sympathetic neurons in the chick (51) 117
Sato, Y., see Ohsawa, H. (51) 27
Schulz, G., see Lambertz, M. (51) 165
Seller, H., see König, S.A. (51) 67
Sternini, C., see De Giorgio, R. (51) 37
Strack, A.M., see Tkacs, N.C. (51) 1

Takasu, T., see Chida, K. (51) 77
Takeda, T., see Murakami, H. (51) 237
Tanaka, K. and Chiba, T.
Nitric oxide synthase containing nerves in the atrioventricular node of the guinea pig heart (51) 245
Tanaka, S., see Murakami, H. (51) 237
Tkacs, N.C. and Strack, A.M.
Systemic endotoxin induces Fos-like immunoreactivity in rat spinal sympathetic regions (51) 1
Tseng, C.-J., see Lin, H.-C. (51) 19
Tulleken, C.A.F., see Vandertop, W.P. (51) 49
Tung, C.-S., see Lin, H.-C. (51) 19
Turiel, M., see Furlan, R. (51) 223

Usui, W., see Chida, K. (51) 77

Vandertop, W.P., De Vries, W.B., Notermans, N.C., Tulleken, C.A.F. and Gispen, W.H.
Beneficial effect of an $ACTH_{4-9}$ analogue on experimentally induced diabetic autonomic neuropathy in the eye of the rat under general anaesthesia (51) 49

Wall, P.T., see Matsukawa, K. (51) 205
Wan, F.-J., see Lin, H.-C. (51) 19
Wilson, L.B., see Matsukawa, K. (51) 205

Yettefti, K., Orsini, J.C., Ouazzani, T.E., Himmi, T., Boyer, A. and Perrin, J.
Sensitivity of nucleus tractus solitarius neurons to induced moderate hyperglycemia, with special reference to catecholaminergic regions (51) 191
Yuan, C.-S., see Barber, W.D. (51) 181

Zittel, T.T., see De Giorgio, R. (51) 37
